## **INTRODUCTION**

The Lower Platte South Natural Resources District is one of twenty-three natural resources districts in Nebraska created by the Nebraska Legislature in 1972. The districts are organized according to the state's river basins.

The natural resources districts have the responsibilities to develop and execute plans, facilities, works and programs related to:

“Erosion prevention and control, prevention of damages from floodwater and sediment; flood prevention and control; soil conservation; water supply for any beneficial use; development, management, utilization and conservation of ground water and surface water; pollution control; solid waste disposal and sanitary drainage; drainage improvements and channel rectification; development and management of fish and wildlife habitat; development and management of recreational park facilities and forestry and range management.”

Nebraska statutes require each natural resources district to prepare a Master Plan and a Long Range Implementation Plan. The Master Plan, which was updated in January 2019, will be in effect for a period not to exceed ten years. It serves as a broad framework for district activities, as described in the attached District's Visions, Desired Outcomes and Objectives.

The purpose of the Long Range Implementation Plan is to summarize planned district activities and budget expectations for the current fiscal year and the subsequent four years. The Plan includes projections of personnel, financial and land rights needs for the planning period.

The Long Range Implementation Plan serves as an implementation tool of the Master Plan. It lists annual programs enacted to achieve the current Goals, Desired Outcomes and Objectives.

The Long Range Implementation Plan is subdivided by Subcommittees and further by Program Areas. For each subcommittee, there is a graph showing the budgeted expenditures for FY 2020 and projected budgeted expenditures for FY 2021 – 2024. For each Program Area, there are Actions listed for Fiscal Years 2020 – 2024, with the Fiscal Year 2020 being more detailed and FY 2021 – 2024 having less certain projects and estimated costs. On the FY 2020 sheet, the second column titled “Draft Budget,” is the “Expenditure” number that was recommended by the Subcommittee and included in the first draft of the FY2020 budget; the number in the next column represents any funds from sources other than the District. The numbers in the column, titled “Final Budget” represent the amounts included in the final budget adopted by the Board of Directors. The last column titled “Budget Code” is the code in the budget documents for each particular expenditure. Where there are no funds in the “Approved Budget” column, either that action is deferred to a later year, dropped from programming, or will require no expenditure to implement. Those actions where funds were proposed in the “Draft Budget” but reduced or zeroed out in the “Final Budget” are generally included in the next fiscal year Actions.

## LOWER PLATTE SOUTH NRD STAFF

Paul Zillig – General Manager  
 David Potter – Assistant General Manager  
 John Albert – Conservation Technician (NRCS)  
 McKenzie Barry – Env. Education/Comm. Coordinator  
 Katie Cameron – ENWRA Project Coordinator  
 Connie Damrow – Bookkeeper Assistant (part time)  
 Dick Ehrman – Water Resources Specialist  
 Connie Hansen – District Secretary (NRCS)  
 Kathy Hauschild – Receptionist/Secretary  
 Steve Herdzina – Water Resources Compliance Spec.  
 Bryce Jensen – Operation / Maintenance Technician  
 Ariana Kennedy – Resources Conservationist  
 Nathan Kuhlman – Information Systems Administrator  
 Al Langdale – Operation/Maintenance Coordinator  
 Mike Mascoe – Public Information Specialist  
 Craig Matulka – Operation/Maintenance Technician

Drew Ratkovec – Maintenance Technician  
 Donna Reid – District Office Secretary/Program Assistant  
 Shaula Ross – GIS Specialist  
 Dan Schulz – Resources Coordinator  
 Maclane Scott – Water Resources Technician  
 Jay Seaton – NRD Forester  
 Evan Sisel – Conservation Technician (NRCS)  
 Kathy Spence – Administrative Assistant  
 Cindy Spilinek – Conservation Technician (NRCS)  
 Adam Sutton – Environmental Educator  
 Jean Ulrich – District Secretary (NRCS)  
 Jared Nelson – District Engineer  
 Vacant – LPRCA Coordinator  
 Vacant – Projects Coordinator  
 Chris Witthuhn – Water Resources Conservationist  
 Tracy Zayac – Stormwater/Watershed Specialist

## LOWER PLATTE SOUTH NATURAL RESOURCES DISTRICT

GOAL	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
<b>A. Sustainable Water Resources</b>	A1. Ground water quantity and quality is known for the entire NRD	A1a. Create interactive data bases of all hydrogeology and water quality data A1b. Implement a quality and quantity monitoring network of wells in all critical areas A1c. Investigate hydrogeology where data/wells are not available A1d. Develop estimates of ground water availability, yield, and quality at all locations	6
	A2. Ground water levels stable and quality meets standards	A2a. Manage quantity and quality consistent with Ground Water Management Plans	6
	A3. Ability to predict changes in ground water quality and quantity	A3a. Design interactive/predictive models for all geographic areas of management	6
	A4. Areas of interrelated ground and surface water are managed	A4a. Identify and map areas of interrelated ground and surface waters A4b. Implement integrated management plans for each area	6
	A5. Surface waters meet or exceed water quality intended use standards	A5a. Identify and quantify source impairments of desired beneficial uses A5b. Implement plans to preserve or restore desired surface water quality A5c. Install monitoring network in watersheds and in-lakes/streams for water quality	6, 7
	A6. Minimum streamflows are maintained for fish, wildlife, and recreational uses	A6a. Quantify minimum streamflows for each critical stream segment A6b. Acquire instream flow rights on priority segments A6c. Implement a program to protect and/or supplement streamflows A6d. Establish a monitoring network on instream flow stream segments	6, 7, 10
	A7. Wastewaters meet or exceed regulatory standards	A7a. Identify and evaluate all sources of wastewater and treatments A7b. Develop a program to assist with improvements to meet regulatory standards	7, 8
	A8. Domestic water supplies meet or exceed regulatory standards and are of adequate quantity.	A8a. Identify and evaluate all domestic water supplies and systems and quality A8b. Develop a plan to protect and enhance existing and future domestic water supplies	5, 6, 7
	A9. Landowners/public all utilize best management practices	A9a. All water users know how much water they use for what purposes A9b. All water users know the quality of their water A9c. Information and education of water users on Best Management Practices A9d. Promote water and energy efficient irrigation practices	1, 4, 5, 6, 7, 10, 12

### STATUTORY PURPOSES

Development, management, utilization and conservation of ground water and surface water</li> </ol> | <ol style="list-style-type: none"> <li>7. Pollution control</li> <li>8. Solid waste disposal and sanitary drainage</li> <li>9. Drainage improvement and channel rectification</li> <li>10. Development and management of fish and wildlife habitat</li> <li>11. Development and management of recreational and park facilities</li> <li>12. Forestry and range management</li> </ol> |
|---|--|

GOAL	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
<b>B. Low Impact Developments</b>	B1. Developments are compatible with and conserve the the site's natural resources and use "green" BMPs	B1a. Include open space in all new residential and commercial developments B1b. Water-wise landscaping planted in new developments B1c. Integrate stormwater quantity and quality BMPs into all existing and new developments B1d. Require cluster development and shared infrastructure in rural areas B1e. Educate developers and homeowners on "green" BMPs for developments B1f. Require detailed analysis of water supply availability and quality in rural developments B1g. Utilize conservation easements to protect open spaces and natural areas in new developments B1 h. Water practices in new developments meet or exceed regulatory standards.	1 - 7, 9, 10, 12
<b>C. Minimal Flood Threat and Damage</b>	C1. All floodplains have been accurately mapped	C1a. Utilize newest photography, topography, and models to digitally map flood plains C1b. Update flood plain maps periodically with land use and other changes	2, 3
	C2. Flood plains are regulated under a "no adverse impact" policy	C2a. Assist cities and counties to revise ordinances to incorporate "no adverse impact" policy C2b. Assist cities and counties to revise ordinances where appropriate require no net rise/no net loss of storage	2, 3
	C3. Public safety risk from flooding is minimized	C3a. Install and operate flood warning systems in critical areas C3b. Assist in development of flood response plans in place for all communities and counties C3c. Monument flood plain boundaries in key areas C3d. Assist in establishment of buyer notification of floodplain risks C3e. Educate public about flood threats and response plans	2, 3
	C4. Flood damages are reduced or eliminated	C4a. Cooperate in programs to retain flood plains as open space in new developments C4b. Acquire and hold conservation easements to preserve critical flood plains C4c. Assist in revision to Lincoln's existing urban area ordinances to include storage no rise pensatory C4d. Acquire and relocate high-risk structures from flood plains C4e. Assist in ordinances to require new subdivisions to absorb their stormwater quantity impacts C4f. Implement cost-effective and environmentally sound flood storage projects to reduce existing and future flood impacts	2, 3

### STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water
7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

GOAL	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
<b>D. Protected natural and unique resource areas</b>	D1. Natural and unique resource areas are identified, assessed, and sustained or enhanced	D1a. Identify the location and extent of natural and unique resources areas D1b. Conduct environmental baseline assessments of natural and unique resource areas D1c. Monitoring program established to assess changes in resources D1d. Programs are developed to respond to changes in resources on natural and unique resource areas D1e. Ownership or conservation easements are secured over natural and unique resource areas D1f. Educate public on the value of natural and unique areas	10, 12
<b>E. Ample natural-resource based recreation</b>	E1. Diverse outdoor recreation opportunities available across the NRD	E1a. New developments incorporate new or replace existing recreation opportunities E1b. Development of recreation trails connecting communities and significant destinations E1c. NRD projects provide public access where it is appropriate and feasible E1d. Inspect and maintain recreation areas to be safe, clean and attractive E1e. Highlight natural resources education at NRD public access areas	11
<b>F. Properly managed agricultural lands</b>	F1. Best management practices utilized on all agricultural lands	F1a. Conservation plans implemented on all agricultural lands F1b. Agriculture producers use energy-efficient practices	1 - 7, 9, 10, 12
	F2. Soil losses at or less than sustainable levels	F2a. Treat and manage all lands to soil losses to less than sustainable levels ("T" rates)	1, 4, 7
	F3. Agricultural lands managed according to their soil survey capabilities	F3a. Identify prime agricultural lands and protect from conversion to other uses F3b. Educate land users and public officials about soil capabilities and restrictions	1 - 4, 7, 10, 12
<b>G. Healthy forests</b>	G1. Urban forests are diversified and enhanced	G1a. New developments include trees/shrubs on streets and public lands G1b. Trees are replaced and diversified in existing urban areas on public lands	10, 12
	G2. Rural forestry is expanded in diversity and scope	G2a. Preserve and enhance wooded riparian corridors G2b. Windbreak, energy conservation and wildlife plantings on all rural home sites	10, 12

### STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water
7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

GOAL	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
<b>H. People are responsible conservationists</b>	H1. NRD is a credible source of information on natural resources	H1a. Public views and uses NRD as a credible source of information H1b. NRD prepares and directs information on natural resources to the public	1 - 12
	H2. Public is knowledgeable on natural resources and environmental issues	H2a. Public becomes conservation-minded in their actions H2b. Educate the public about conservation issues resulting in responsible actions	1 - 12
	H3. Agencies and elected officials include natural resources concerns in decision-making	H3a. NRD serve as an advisor to agencies/officials on natural resources H3b. Agencies/officials include natural resource factors in decisions	1 - 12
	H4. Schools provide natural resources education	H4a. Outdoor classrooms are available to students in all grade levels in all schools H4b. Environmental / natural resources curriculum taught at all grade levels in all schools	1 - 12
<b>I. Healthy wildlife habitat</b>	I1. Diverse, dispersed, healthy wildlife populations	I1a. Identify suitable habitats for wildlife throughout NRD I1b. Protect and restore critical habitats/corridors particularly riparian areas I1c. Protect surface water quality in lakes, wetlands, and streams I1d. Public aware and supportive of wildlife habitat protection	10
	I2. Critical habitat for endangered species managed	I2a. Identify and map designated critical habitat for all endangered species I2b. Develop and implement recovery programs for each endangered species I2c. Develop and implement Habitat Conservation Plans as appropriate	10
	I3. Saline wetlands and prairies protected and restored to full functions	I3a. All freshwater and saline wetlands delineated, classified and mapped I3b. Critically sensitive wetlands acquired in fee or by easement by the public I3c. Key wetlands restored to their full function	1 - 7, 10
<b>J. Resiliency to changes in climate and clean environment</b>	J1. Mitigation of and adaptation to changes in climate	J1a. Recognize that mitigation of and adaptation to changes in climate are consistent with NRD statutory purposes J1b. Board and staff study the scientific consensus on the effect of changes in climate on our region in general and Nebraska in particular. J1c. Continually consider the effect of changes in climate when initiating new NRD programs, and when making changes in existing programs. J1d. Implement programs and practices that will improve carbon capture potential of land resources as a mitigation tool.	1 - 7, 9-12
	J2. Energy and conservation practices are everyday activities	J2a. Increase proportion of materials that are recycled and reused J2b. Construct buildings and infrastructure to use sustainable materials and techniques J2c. Energy-efficient and low polluting vehicles become standard.	7, 8

### STATUTORY PURPOSES

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water

7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

GOAL	DESIRED OUTCOMES	OBJECTIVES	STATUTORY PURPOSE
<p><b>K. NRD is a conservation leader</b></p>	<p>K1. NRD at the forefront of innovative conservation</p>	<p>K1a. NRD conservation programs and projects utilize leading edge conservation technology            K1b. Utilize research, demonstrations, and education to promote use of better BMPs by the public and agencies            K1c. Promote use of sustainable products and practices in construction of NRD projects</p>	<p>1 - 12</p>

**STATUTORY PURPOSES**

1. Erosion prevention and control
2. Prevention of damages from flood water and sediment
3. Flood prevention and control
4. Soil conservation
5. Water supply for any beneficial uses
6. Development, management, utilization and conservation of ground water and surface water

7. Pollution control
8. Solid waste disposal and sanitary drainage
9. Drainage improvement and channel rectification
10. Development and management of fish and wildlife habitat
11. Development and management of recreational and park facilities
12. Forestry and range management

## FY 2020 - Measurable Goals or Outcomes

As directed in the LPSNRD 2019 Master Plan, a list of measurable goals or outcomes for FY'20 has been prepared and is listed below.

### Land Resources

#### *Soil & Water Conservation (District-wide)*

- Complete construction of two approved dams
- Complete 75% of the approved cost-share conservation practices

#### *Soil & Water Conservation (Targeted)*

- Approve at least 25 cover crop applications
- Complete 85% of the approved cost-share conservation practices

#### *GIS Support and Imagery*

- Complete GIS mapping of NRD R.O.W. on 20 parcels

### Information & Education

#### *Environmental Education*

- Host seven Nature Nights (budgeted for 8)
- Co-sponsor Earth Wellness Festival (EWF) educating 3,500 students
- Assist with Arbor Day activities at 15 schools
- Provide assistance for Pioneers Park Nature Center School Tour Hikes for 6,000 students
- Provide assistance for Pioneers Park Nature Center and Spring Creek Prairie Immersion field trips for 1,500 students

#### *General Awareness*

- Produce two new promotional drone videos
- Produce two new social media videos and two new television ads
- Publish 120 posts per year on the NRD FB page
- Publish 160 post/year to the NRD Instagram
- Produce and promote two new podcasts
- Host at least 7,000 visitors to LPSNRD.org per quarter

#### *Programs and Projects*

- Hold two Test Your Well nights

### Recreation, Forestry, and Wildlife

#### *Conservation Easements*

- Acquire one conservation easement

#### *Prairie Corridor on Haines Branch*

- Purchase land or conservation easement on at least two additional properties identified in the corridor

#### *Trails*

- Obtain approval of Rosa Parks Way Trail

#### *Tree Plantings*

- Sell at least 40,000 tree seedlings
- Hold at least one tree planting workshop
- Cost-share on six community forestry applications

## **Platte River**

### *Lower Platte River Corridor Alliance*

- Hold one tour of Platte River (for Alliance Reps and/or LPSNRD and PMRNRD)

## **Integrated Management Planning**

### *Integrated Management*

- Approval of Drought Contingency Study

## **Urban**

### *Community Assistance Program*

- Complete four community assistance projects

### *Operation and Maintenance Stormwater Facilities*

- Complete at least 5 Salt Creek Levee projects identified in the SWIF

### *Stormwater Management*

- Complete project SSC#4
- Complete at least two rainscaping projects in the District

## **Water Resources**

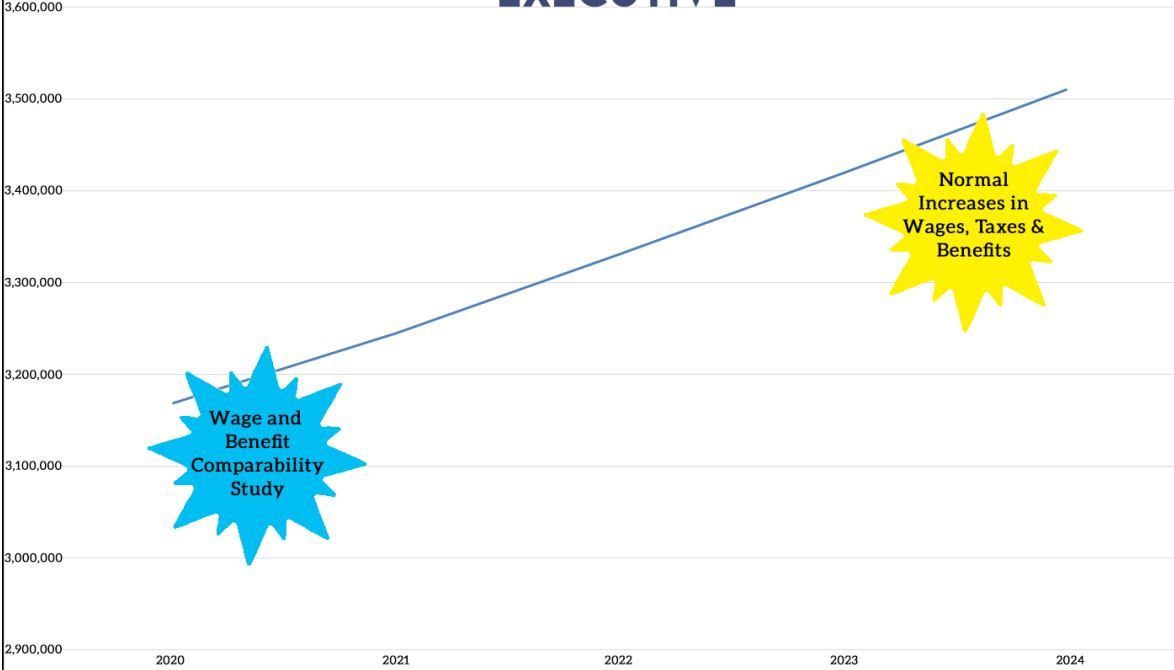

### *Flood Control Dams and Road Structures*

- Complete the Oak-Middle 82-B Watershed Rehabilitation Project

### *Ground Water Management*

- Approve 10 water well permits
- Approve 55 chemigation permits
- Cost-share on 2 water meters
- Decommission 25 inactive wells
- Sample 150 wells for water quality
- Install 2 dedicated monitoring wells
- Cost-share on 12 fertilizer meters
- Cost-share on 3 irrigation management practices
- Cost-share on 30 vadose zone hole sampling
- Cost-share on 9 soil sampling projects
- Cost-share on 3 SNAP approvals

Implement recommendations from Lower Platte River Drought Contingency Study including water conveyance via streams from upstream sources and associated effects on stream flow. (Goals & Objectives 1.3.3)	\$250,000	\$25,000
Coordinate with other entities to better understand urban growth projections and potential impacts on water inventory. (Goals & Objectives 1.4.1)	\$0	\$0
Coordinate with District-wide comprehensive planning initiatives to develop a technical review of rural development impacts on water inventory. (Goals & Objectives 1.4.2)	\$0	\$0
Cooperate with adjoining NRDs to map and analyze aquifers that span NRD boundaries. (Goals & Objectives 1.6.1)	\$10,000	\$0
<b>WATER SUPPLY MANAGEMENT</b>		
Implement recommendations for limited aquifer areas and coordinate with developers, builders and city and county land-use planners and zoning agencies. (Goals & Objectives 2.1.1)	\$20,000	\$0
Monitor areas where the geology indicates well interference is possible and explore options for prevention. (Goals & Objectives 2.1.4)	\$25,000	\$0
Encourage discussions with municipalities and rural water districts on coordinating services and regional water systems. (Goals & Objectives 2.3.1)	\$0	\$0
Remove invasive species to improve conveyance. (Goals & Objectives 2.5.2) <a href="#">[See Platte River]</a>	\$0	\$0

<b>FISCAL YEAR 2021 ACTIONS CONTINUED</b>		
	<b>BUDGET</b>	<b>OTHER FUNDS</b>
<b>WATER USE MANAGEMENT</b>		
Continue to implement the emergency response/drought mitigation action plan (Chapter 7.V) (Goals & Objectives 3.5.4)	\$20,000	\$0
Implement limitations or temporary or permanent moratoriums on irrigation of marginal lands during water shortage as applicable. (Goals & Objectives 3.1.6)	\$0	\$0
Continue agriculture irrigation BMPs and technology. (Goals & Objectives 3.1.2; 3.1.4; 3.1.5; 3.1.9 & 3.2.2) <a href="#">[See Ground Water]</a>	\$0	\$0
Support multi-agency effort to develop and implement standards and ordinances for water conserving landscapes. (Goals & Objectives 3.3.1)	\$10,000	\$5,000
Implement a cooperative program with all public water suppliers to develop a conservation or water shortage action plan. (Goals & Objectives 3.5.4)	\$10,000	\$5,000
Evaluate Lower Platte South NRD streams for potential benefits from instream flow protection and determine minimum flows and levels needed. (Goals & Objectives 3.7.3)	\$100,000	\$0
Develop / continue proactive outreach to well owners to inform them about District regulations, practices, cost-share as well as limitations in District authority. (Goals & Objectives 3.9.6)	\$5,000	\$0
Implement conservation programs, fees and incentives for water use management. (Goals & Objectives 3.10.1)	\$50,000	\$0

<b>FISCAL YEAR 2022 ACTIONS</b>		
	<b>BUDGET</b>	<b>OTHER FUNDS</b>
Conduct annual interagency meeting, conduct annual review with NDNR, prepare and distribute reports, and consider Plan amendments. (Chapter 7.I.c.ii & Chapter 9)	\$0	\$0
Participate with Lower Platte River Basin Coalition (LPRBC) in studies and implementation of a Basin Water Management Plan (Chapter 7.I.d.i) (Goals & Objectives 1.3.1; 1.5.2; 1.5.4; 2.6.1 & 2.6.2)	\$20,000	\$0
<b>WATER INVENTORY</b>		
Continue collecting and storing data on ground water levels, surface water flows and storage, water use, land use changes, population changes; climate changes, continue research on ground water hydrogeology characteristics; continue upgrade of water inventory database. <a href="#">[See Ground Water LRIP Program Area]</a>	\$0	\$0
Use the best available data and tools to study and better understand the District's aquifer properties, extents and connectivity to surface water. (Goals & Objectives 1.1.1)	\$0	\$0
<ul style="list-style-type: none"> <li>• Utilize North Oak stream gauges in SVB SMA.</li> </ul>	\$0	\$0
Coordinate with NDNR INSIGHT on data collection and application. (Goals & Objectives 1.1.2)	\$0	\$0
Implement NDNR procedure to track depletions and gains to streamflows (Chapter 8.II.d) (Goals & Objectives 1.1.3)	\$0	\$0
Maintain a comprehensive spatial / tabular water inventory database. (Goals & Objectives 1.1.5)	\$5,000	\$0
Develop or modify programs in response to climate change projections. (Chapter 8.II) (Goals & Objectives 1.1.5)	\$10,000	\$0
Cooperate in surface and ground water modeling with NDNR, including hydrologically-connected areas. (Goals & Objectives 1.3.2)	\$0	\$0
Implement recommendations from Lower Platte River Drought Contingency Study including water conveyance via streams from upstream sources and associated effects on stream flow. (Goals & Objectives 1.3.3)	\$250,000	\$25,000

## **PERSONNEL, FINANCES, AND LAND RIGHTS REQUIREMENTS**

This section of the Plan summarizes three important requirements of the District. Each requirement is vital in the operation of the District, and thus must be examined for the current fiscal year as well as forecasted for a longer range period.

### **PERSONNEL**

FY2020:

Present District full-time personnel include: General Manager, Assistant General Manager, District Engineer, Projects Coordinator, Public Information Specialist, Environmental Education/Communication Coordinator, Environmental Educator, Resources Coordinator, Resources Conservationist, Stormwater/Watershed Specialist, GIS Specialist, Water Resources Specialist, Water Resources Conservationist, Water Resources Technician, Operation and Maintenance Coordinator, Operation and Maintenance Technicians (2), Maintenance Technician, Administrative Assistant, Receptionist/Secretary, District Office Secretary/Program Assistant, Information Systems Administrator and Water Resources Compliance Specialist in the District office along with a Resource Technician and a Field Office Secretary in the Cass County NRCS office and two Resource Technicians and a Field Office Secretary in the Lancaster County NRCS Office. The District employs several part-time technicians assigned to the six county NRCS offices, a part-time Bookkeeper, a part-time Social Media Assistant and part-time student interns, environmental education aides and summer field crews are also employed.

The Saline Wetlands Coordinator employed by the City of Lincoln, an NRD Forester and the Coordinator for the Eastern Nebraska Water Resources Assessment (ENWRA) under funding arrangements with UNL are officed at the District office.

The District will continue to increase utilizing social media by devoting additional time from the part-time Social Media Assistant. The Lower Platte River Corridor Alliance will continue to meet, the LPRCA Coordinator position will remain vacant at this time. Work on the Prairie Corridor on Haines Branch continues, this coordinated effort with the City of Lincoln may require an additional Operation/Maintenance Technician, depending on the Cities decision to maintain the property. Additional personnel may be required to assist with the Deadmans Run Flood Reduction Project, the Salt Creek Levee improvements, the Lincoln/Salt Creek Flood Resiliency Study, and other projects.

The District contracts with the Nebraska Department of Corrections for two inmate crews with supervisors to perform operation and maintenance and property management activities.

FY 2021 – 2024:

It is anticipated that in FY 2021 a second Engineer will be needed. Other district staffing requirements will remain level or continue to increase in connection with the following projects: the Salt Creek Levee O&M/SWIF, Deadmans Run Flood Reduction Project, social media, the Prairie Corridor on Haines Branch project, Platte River activities, wetland restoration and preservation, recreation trails, implementation of the Ground Water Management Plan, the Lower Platte River Basin Water Management Plan (Coalition) implementation, the Integrated Management Plan/Drought Contingency projects, a growing commitment to operation and maintenance, aging infrastructure rehabilitation and urban stormwater management activities. Staff adjustments are likely.

## **FINANCES**

FY 2020:

The District operates on a budget made up of a variety of sources, including property taxes from the District levy, federal funds, state funds from several programs/agencies and local funds under cost-sharing arrangements with communities, counties, and other local entities. The tables and graphs on the following pages display the sources and relative proportions of the District revenues and the level of planned expenditures for the various budget areas.

FY 2021 – 2024:

The long-term projections of expenditures are contained in the following tables. The largest potential funding needs in this time horizon and beyond is the proposed Deadmans Run Flood Reduction Project, Urban stormwater programs, Salt Creek Resiliency Projects, the Prairie Corridor on Haines Branch, the MoPac East Connection to the Lied Platte River Bridge, and infrastructure (dams and levees) maintenance and rehabilitation. The Deadmans Run Flood Reduction Project's anticipated District cost of \$7.5 million is nearly covered at this time, it will require approximately \$1 million per year in additional funds through 2022, unless State funding is obtained (Water Sustainability Funding).

## **LAND RIGHTS**

FY 2020:

Land right acquisitions will include additional easements for flood control dam rehabilitation, easements for open space and projects that are a part of basin master plan implementation, the Deadmans Run Flood Reduction Project, conservation easements and fee title for the Prairie Corridor on Haines Branch project, conservation easements, leases for monitoring wells and easements or acquisitions of wetlands. Implementation of the Deadmans Run Flood Reduction Project will require coordination

between the City of Lincoln and District to acquire the necessary land rights for the project.

FY 2021 – 2024:

Land rights will be required for the Deadmans Run Flood Reduction Project, the Prairie Corridor on Haines Branch Project, for trails and trail connections, for conservation easements as proposed and considered, for wetlands, for Lincoln basin master plan implementation, and along the Salt Creek Levees in Lincoln and other flood plain areas.
